Class	Image <small>(Default) Describing the type of object.</small>
Identifier	1983.95.157 <small>(Default) Listed as the "Object Number" in the Smithsonian Institute Digital Collection, and the "Q ID" in Wikidata . An unambiguous reference number for each object. I hope this will be useful for users who want to reference the original sites. This was very helpful for me when referencing back to the sites for this project.</small>
Title	Romantic Landscape <small>(Default) Title of the art object . Pulled from the Smithsonian Intitute.</small> See all items with this value
Date	1871 <small>(Default) Pulled from the Smithsonian Institute.</small> See all items with this value
Creator	Duncanson, Robert Seldon <small>(ULAN) Pulled from Getty Union List of Artist names. Yet not all artists could be found super easily? I often had to refer to the ULAN site to check for spelling and string/ text format. (ie "Last Name, First Name" or Initials referring to middle names ect..)</small> See all items with this value
Publisher	Smithsonian American art museum <small>(URI) I used this to hyperlink to the Smithsonian Website so users could explore their collection as a whole, or see other data that is not included in this site.</small>
